

20260423 On the Demise of an Abusive Personality

This morning, I am working on several projects and it has become clear to me that the abusive forces that are spying on my home are hell-bent on forcing some sort of reaction from me - by doing the exact same thing day after day, hour after hour - minute after minute -

Just like right now as I comment on this, they are continuing to spy on me, and prove that they are spying on me, by driving a non-stop parade of cars past my home to coincide with literally countless opportunities of beginning and ending my daily tasks. (My home is awash with an ocean of vehicle noises as the doppler effect drives them past the front of my house every time that I do x, y, z.)

So, the thought keeps occurring in my mind - as it has been for years now - that these are abusers, that are attempting to abuse people into submission, by simply being so abusive that their 'opponent' gives up.

Their strategy is clearly to pound away at people using whatever tool they find is most effective - like an abusive husband beating his wife with his fists.

So, in honor of our mili-turds, and the spineless politicians that couldn't be '*bothered*' to stop them, let us review our current predicament with a clear and reasonable mind - unlike the abusers that manipulate our world every day.

But let them suffer the maidens and the women to go free, inasmuch as they did not expect to suffer any of the evils which war brings upon men at their hands, as they are exempt from all military service through their natural weakness.

(224) From all which it is plain that the nation of the Jews is allied with and friendly to all those who are of the same sentiments, and all who are

peaceful in their intentions; and that it is not to be despised as one that submits to those who begin to treat it with injustice out of cowardice; but when it goes forth to defend itself, it distinguishes between those who are habitually plotting against it and those who are not; (225) for to be eager to slay all men, and even those who have committed but slight offences, or no offences at all against one, I should call the conduct of an inhuman and pitiless soul, as it would be also to treat women as if they were an addition to the men who carry on war, when their way of life is naturally peaceful and domestic.

White House urges Iran to strike deal as Trump renews military threat

MIDDLE EAST

Washington (United States) (AFP) – The White House warned Iran it would be “wise” to reach a deal with the United States, as President Donald Trump again raised the prospect of military action amid renewed, Oman-mediated talks. The remarks come as tensions remain high following recent protests and a fragile diplomatic push between Tehran and Washington. (In the ‘legal’ world, this is called ‘duress’ and would make such a deal void as ‘unconscionable’, but in the ‘KKK-Klown’ world of Donald Chump, this is the ‘Art of the Deal.’)

AI Overview

Contract duress occurs when a party is forced into a contract against their will through threats, coercion, or unlawful pressure, rendering the agreement voidable. The primary types are **physical duress** (threats of bodily harm), **economic duress** (unlawful financial threats), and **psychological/emotional duress** (extreme manipulation or threats to reputation). Main Types of Contract Duress

- **Physical Duress:** This involves actual or threatened physical violence against the person, their loved ones, or their property to force them to sign a contract. A contract signed under physical threats is generally considered void. (War ships and ‘vessels’ parading around the ‘target’)
- **Economic Duress:** Occurs when one party threatens to damage the other's financial interests to force them into an agreement. Examples include threatening to breach a contract, withholding payment, or abusing a dominant economic position. (Tariffs)
- **Psychological/Emotional Duress:** Involves using intense mental or emotional pressure to manipulate a party, such as threats of blackmail, public humiliation, or exposing private, embarrassing information. (Starlink internet protests)
- **Undue Influence:** While sometimes considered separate from traditional duress, it involves using a position of power, trust, or authority to override a person's free will, often seen in relationships with high susceptibility to influence. (Trump-Rape) [Corporate Finance Institute +7](#)

President Proposes \$1.5 Trillion Defense Budget

WASHINGTON REPORT

April 07, 2026

[44% Increase next year](#)

The White House released its fiscal 2027 budget blueprint Friday with a record 44% increase in defense spending.

[1.5 Trillion](#)

The \$1.5 trillion request for 2027 builds on the record \$1 trillion for 2026 and includes a pay boost of 7% for all military personnel ranked E-5 and below, 6% for E-6 to O-3 and 5% for O-4 and above.

[Exceeds the buildup just prior to World War II](#)

"This amount exceeds even the Reagan buildup by approaching the historic increases just prior to World War II, a level that recognizes the current global threat environment and restores the readiness and lethality of our forces," states a White House [fact sheet](#).

[1 Trillion](#)

The fiscal 2026 budget totaled \$1 trillion through a combination of \$838.7 billion in the defense appropriations act and an additional \$150 billion as part of the so-called One Big Beautiful Bill signed last summer.

The 2027 budget request includes \$1.1 trillion in base discretionary budget authority specifically for the Pentagon.

["We Just NEED to Build a Bigger hammer!" \(Cuz evil n stuff. . .\)](#)

The White House request is seeking \$350 billion to be approved by Congress through the reconciliation process, which would require only a simple majority to pass the Senate.

THE TRILLION DOLLAR WAR MACHINE

How Runaway Military Spending
Drives America into Foreign Wars
and Bankrupts Us At Home

Description

A hard-hitting investigation into how the Pentagon's runaway spending embroils America in foreign wars, squanders its wealth, and enriches a privileged elite

"A damning indictment of the conflicts of interest running rampant in the defense establishment." —*Publishers Weekly*

America spends nearly a trillion dollars a year on its military. This extraordinary spending not only detracts from our ability to address pressing social problems but compels us into foreign wars to justify our vast arsenal. Sold to us in the name of "security," our military industrial complex actually makes us far less safe.

Top policy experts William D. Hartung and Ben Freeman follow the profits of militarism from traditional Pentagon contractors, which receive more than half of the Pentagon's budget, to the upstart high-tech firms that shamelessly promote unproven and destabilizing technologies. They unmask the enablers of the war machine—politicians, lobbyists, the media, Hollywood, think tanks, and so many more—whose work enriches a wealthy elite at the expense of everybody else, spreading conflict around the world and embroiling America in endless wars.

A damning tour de force, *The Trillion Dollar War Machine* shows who is pulling the strings and pushing for war, and offers a blueprint for how we can shut down the war machine and restore American security and prosperity.
